

Certificate of Insurance Requirements

To avoid the 14% damage waiver fees, we need to have a certificate of insurance on file to protect the equipment being rented. We ask that you supply us with the following:

- ❖ Certificate of Insurance with Rented/leased Equipment policy with a minimum of \$100,000.00 coverage. Or a policy stating Inland Marine or Contractors Equipment Floater coverage.
- ❖ Please name Summit Equipment Rentals, LLC as loss Payee, Additional Insured and Certificate Holder.
- ❖ We prefer the policy to cover all equipment rented instead of specific pieces to avoid retrieving a new Certificate for every rental.
- ❖ We ask a 30-day notice of cancellation and/or change to the policy coverage.

As always, we thank you for your business and look forward to serving your rental needs.
